Canova 12x12

The Italian artist of the Neoclassical period, Antonio Canova, lends his name to this artistic tile that is both light and complex. Canova in a 12x12" format, reflects the artist's concept, embodying moderation and balance. It strikes a harmony between the extravagant and the sober, evoking the essence of daytime. Geometric lines, prominently featuring the color yellow over a satin finish, allow for creative expression—whether in an orderly or random arrangement. The result is a series of dynamic, three-dimensional patterns.
